

SMART SOLUTIONS FOR THE LABELING INDUSTRY

AUTOMATIC LABEL COUNTER / SMALL REEL TO REEL

model **CE111**

model **CSR111**

Automatic Label Counter Series allows to count the labels on a roll, to rewind and unwind the labels on one machine, to rewind the labels onto different core sizes, to rewind small rolls of labels from a larger one and also to rewind small rolls with a preset number of labels from a larger roll.

This last feature is possible thanks to the setting of the preset labels' number through the electronic counter. Once the preset number of labels will be reached, the label counter will stop by uttering an acoustic signal. Both turrets of the label counter are motorized and it is possible to adjust the speed of rotation on the rewinder only while the unwinder has an automatic self-adjustment speed.

Automatic Label Counter Series can handle labels up to 5" (127mm) wide and it can rewind and unwind rolls of labels with diameter up to 10" (250mm) on an adjustable core holder from 1.57" up to 4.64" (40-118mm). It has a speed of 120 rpm. The Automatic Label Counter turns in one direction only, from left to right. From the unwinder to the rewinder.

The "CLM" has the same features of the "CE" with the option to stop when the sensor detects a missing label.

	MODULE	MODEL	UNWINDER CORE HOLDER	REWINDER CORE HOLDER
	CE Label Counter <i>(min. gap 0.08"; min. label width 0.08")</i>	1 Roll Diameter 10" (250mm)	1 1.57" - 4.64" (40 - 118mm)	1 1.57" - 4.64" (40 - 118mm)
	CLM Label Counter with missing label <i>(gap min. 0.08"; min. label width 0.08")</i>	Label Width 5" (127mm)		
	CSR Small reel to reel
